Making the Grade: Filament Facts

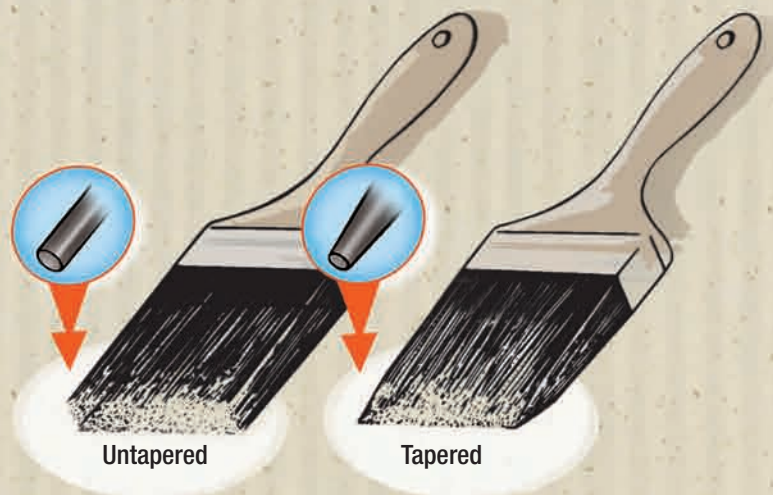

The working end of a brush is the most important factor in its level of performance. Synthetic brushes made with nylon, polyester, and other filaments can be used with all types of paint. They are especially recommended for water-based coatings (latex, acrylics, water-based wood finishes).

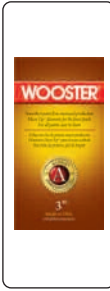

FILAMENT	GRADE	CHARACTERISTICS
 NYLON	A	Very durable, resists wear on rough surfaces. Lasts 5 times longer than bristle, 2 times longer than polyester. Tips very precisely for a smooth, professional finish. Cleans completely and easily. Softens in hot weather or prolonged use in latex.
 NYLONPLUS™	A+	All the positive qualities of nylon, plus more stiffness. Exclusively from Wooster in Ultra/Pro® extra-firm brushes. Solid and tapered with a unique shape for added durability. Maintains stiffness in heat and humidity, excellent control.
 POLYESTER CT	B+	Hard wearing chemically tipped filaments that allow fast brush-in and give an excellent smooth finish with minimal brush marks. Does not absorb water, resists heat and softening. Lasts 2½ times longer than natural bristle, stays in shape as it is wearing down. Good clean up.
 POLYESTER	B-	Does not absorb water, resists heat and softening. Lasts 2½ times longer than natural bristle. Can't be precisely tipped, tends to leave brushmarks. Very difficult to clean.
 NYLON/ POLYESTER	A-	Combines positive qualities of nylon and polyester. Polyester used in short lengths to add stiffness and control. Nylon used in long lengths for precise tipping, smooth finish. Depending on the polyester content, takes some time to clean.
 OLEFIN or ECONOMY	D	Cost-effective filament for DIY and maintenance brushes. Wears out quickly, leaves brushmarks. Very difficult to clean.

Test for Taper: See It & Feel It

Tapered filament helps paint flow for better coverage. It "pumps the paint" out and down to the surface. It also gives shape to the brush for precise cutting-in. Look at the brush edge-wise. If it comes to a point, it has taper and will provide more control.

Untapered or level filament reduces the price of the brush, but it also sacrifices capacity, coverage, and control. It won't release paint like tapered filament. If the thickness of a brush feels the same from base to tip, it is untapered. It lacks the performance of a brush with tapered filaments.

Alpha™ Varnish #4233

- Unique synthetic blend featuring MicroTip™ filaments for the finest finish in all paints
- Stainless steel ferrule
- Firm full formulation for smooth paint flow and increased production
- Sealed maple wood handle

Cat. No.	Size	Length Out	Thick	Shelf Pack

Wooster Alpha: A New Direction for Paintbrushes

by Chuck Cline, Wooster Brush Co.

It's hard to imagine that a paintbrush could create problems for painters. But brushes that drip, don't carry enough paint or can't make sharp lines can hurt a painter's profits. After all, a painter makes money by time spent on the wall, not the time spent in a bucket or tray.

New Wooster Alpha™ has better paint capacity and a higher release percentage than any other brush available today. More paint delivered to the surface means an overall increase in production! In lab tests, every style of Alpha painted at least 30 percent further than other brushes of equal size.

The brushes were also field-tested by contractors. One group of contractors who were given Alpha brushes wouldn't give them back! They said it was that they couldn't wear them out. Another contractor has painted two office buildings as well as two other full jobs—all with the same brush.

The Wooster-exclusive filament in this brush is made for use with all paints, from architectural acrylics to oil-based wood finishes. The Micro Tip™ technology in Alpha is what provides the fine finish. The soft tips allow for easier paint flow. Gradually increasing pressure will release even more paint to the surface. Learning to control the high volume of paint that Alpha can carry is the key to using this one-of-a-kind brush.

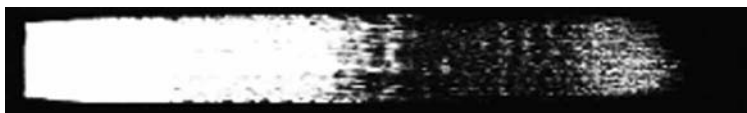

Alpha was designed to hold more paint in the end of the brush, so it takes less effort to release it onto the surface and during cleanup. The slightly fuller end also eliminates drag while continuing to offer exceptional Wooster cut-in capability. The tips on Alpha are remarkably soft and supple, and they provide so much control that it almost feels like an artist's brush. Alpha is available in 13 total SKUs, including angle sash, thin angle sash, flat sash, varnish, semi- oval and wall styles.

Alpha is the closest the industry has ever come to a universal brush. This line is definitely the new direction for the brush industry. With a fine finish, higher paint capacity, increased production and superior control, Alpha professional brushes are the best that Wooster has ever produced. Alpha possesses the qualities painters want in a brush, and finally, it's all in one package.

- The new Wooster Alpha™ has better paint capacity and a higher release percentage than any other brush available today

Wooster® Alpha™

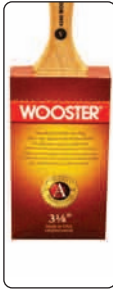

Competitor's Brush, equivalent price/quality

- A paint-out with the use of the Alpha brush.

Chuck Cline is the Wooster brush development engineer. He has 34 years of service with Wooster Brush. For more information about Alpha, contact Rob Coleman on 07889 891644.

Alpha™ Shasta #4240

- Unique synthetic blend featuring MicroTip™ filaments for the finest finish in all paints
- Firm full formulation for smooth paint flow and increased production
- Stainless steel ferrule

15600.4x12	4"	60mm	12"	4

Making the Grade: Bristle Facts

Natural bristle is the best choice for oil-based paints, varnishes, shellac, alkyd enamels, oil stains, and oil-based polyurethanes. The highest quality comes from mainland China. It has the softest natural tipping and unparalleled flexibility, providing the smoothest finish with virtually no brushmarks.

BRISTLE	GRADE	CHARACTERISTICS
 <p>BLACK BRISTLE</p>	 <p>B</p>	<p>Slightly stiffer than white bristle. Thicker flags on the tips than white bristle. Excellent for high-productivity or exterior applications.</p>
 <p>WHITE BRISTLE</p>	 <p>B</p>	<p>Softer and more flexible than black bristle. Thinner, feather-like flags on the tips. Excellent for fine finishing or interior applications.</p>
 <p>OX HAIR</p>	 <p>A</p>	<p>Natural bristle material obtained from the ears of oxen. Extremely thin, soft, and expensive. Tips come to a natural point (no flag) for super-fine finishing. Always blended with China bristle in standard paintbrushes. Perfect for lacquer, enamels, marine paints, and varnishes.</p>
 <p>GREY BRISTLE</p>	 <p>C</p>	<p>Cost-effective bristle for DIY and maintenance brushes. Made from an unsorted mixture of black and white bristle. Softer than black bristle, but stiffer than white alone.</p>

Did you know...

Bristle for paintbrushes is a natural by-product from long-haired hogs raised throughout China. Highest-quality, "grade A" bristle is very difficult for all brush manufacturers to obtain consistently because bristle is being harvested before it has time to fully mature. We use only best dressed bristle from reliable sources.

Exquisit hs® Pro #12100

- Top quality hand-made long length out 100% black bristle
- Superior finish in oil based paints
- Solid hardwood handle, stainless steel ferrule

Work Horse™ #1840

- Pole-mount brush for use with extension poles, including Sherlock GT®
- Durable polypropylene bristles maintain stiffness and resist chemicals or solvents
- Excellent for surfaces that are often out of reach, such as siding, roofs, storage tanks, and decks
- Overall 8" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1840	8" x 2"	85	2¼"	4

Prep Crew® Masonry Coater™ #1826

- Fast, thorough coverage with all thick-bodied paints and waterproofing, foundation, or roof coatings
- Natural tampico fiber is strong and pliable; resists chemicals and solvents, 100% biodegradable
- Polypropylene pistol-grip handle reduces wrist fatigue
- Built-in bucket clip
- Overall 13" length

Cat. No.	Block Size	Length Out	No. of Tufts	Shelf Pack
1826	6" x 1¾"	3½"	50	4

Painter's Comb™ #1831

- Two-sided tool improves paintbrush cleaning
- Non-rusting brass bristles gently remove heavy paint buildup
- Stainless steel comb has 12 pins to speed the wash and rinse steps; also reshapes the paintbrush prior to storage
- Durable polypropylene handle
- Overall 8¼" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1831	3¼" x 1"	38	1"	6

Shortcut® AS #B3211 & #Q3211

- Flexible purple Shergrip® handle, only 2¼" long, adds maneuverability in tight spaces
- White nylon/gold polyester blend for all paints (latex, acrylics, and water-based stains)
- Brass-plated steel ferrule
- B3211 has two 30" clip strips holding 9 brushes each; Q3211 counter display carton has a full-color 9" x 7" sign

1117-3	3"	1¼"	5/16"	24

Match the Roller to the Surface

The pile height of a roller cover is the length of the fibres that extend from the backing and carry the paint. Choosing the right pile size is not difficult. Basically, for smooth surfaces you use a shorter pile to evenly apply the paint; rough surfaces need a higher pile, so the long fibres can reach into the valleys of the texture. Some specific examples are below.

ROLLER	PILE HEIGHT	PAINTING SURFACE
	3/16" to 1/4"	Untextured plaster, smooth wood, wallboard, drywall, metal
	3/8" to 1/2"	Most walls & ceilings, lightly textured drywall or wood, acoustical tile
	3/4" to 1"	Textured plaster or stucco, paneling, decks, concrete block
	1 1/4" to 1 1/2"	Heavily textured plaster or stucco, rough wood, brick, corrugated metal

Fabric Facts: Knit vs. Woven

The vast majority of roller heads are made one of two ways—knitting or weaving.

KNIT PILE

Knitted fabric fibres are secured to the backing with a single pass-through. This “open stitch” process provides excellent pickup and release for the fastest coverage. Knit rollers are recommended for flat, eggshell, or satin paints and stains or waterproofing coatings.

WOVEN PILE

Woven fabric fibres are individually secured to the backing using two pass-throughs. This “double lock” process results in the smoothest, virtually lint-free finish. Because they are shed-resistant, woven rollers can be used with confidence in enamels, primers, and all paints: flat, eggshell, satin, semigloss, and gloss.

Avalon™

KNIT

- Proprietary gray-green fabric provides superior coverage and finish quality
- Reduces shedding 50% compared to leading high-production (knitted) covers
- Extremely smooth, fast results with all emulsion, flat and satin paints, stains, waterproofing
- Green™ double-thick 1 1/4" polypropylene core resists water, solvents, and cracking

Cat. No.	Length/Diameter	Pile	Surfaces	Shelf Pack
ER355-9	9"/1 1/4" Ø	3/8"	Medium	12
ER356-9	9"/1 1/4" Ø	1/2"	Semirough	12
ER359-9	9"/1 1/4" Ø	3/4"	Semirough/rough	12
ER360-9	9"/1 1/4" Ø	1 1/4"	Extra rough	12

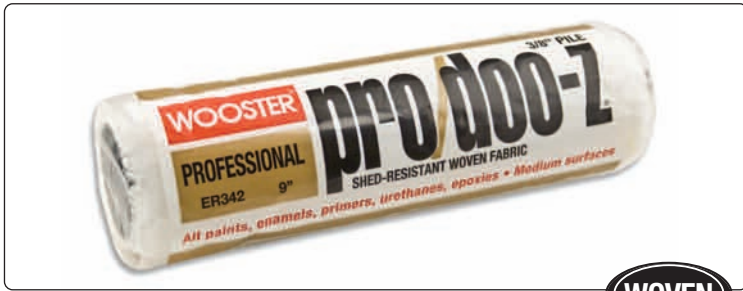

50/50™

KNIT

- Golden yellow fabric blend of 50% lambswool and 50% polyester for 100% performance in all emulsion, flat or satin paints, stains, waterproofing
- Wool provides maximum paint capacity and a smooth finish; polyester resists matting
- Green™ double-thick 1 1/4" polypropylene core resists water, solvents, and cracking

Cat. No.	Length/Diameter	Pile	Surfaces	Shelf Pack
ER395-9	9"/1 1/4" Ø	1/2"	Semirough	12

Differences between Jumbo-Koter® & other minirollers

JUMBO-KOTER

Grip

Full-size polypropylene handle, threaded for extension pole use, Sherlock GT® compatible.

Shank

Sturdy, chrome-plated 1/4" wire that connects the functioning cage to the grip.

Cage

Precision-engineered to roll smoothly every time, even with heavy materials. Works with both 4 1/2" and 6 1/2" Jumbo-Koter covers.

Roller

Made with Wooster branded fabrics. Open 3/4" core makes cleaning easy.

TYPICAL MINIS

Grip

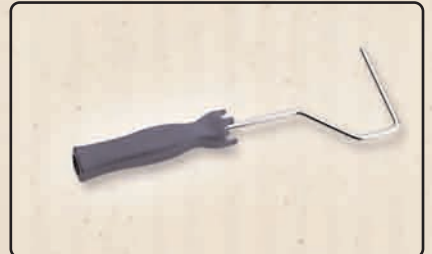

Plastic handle, threaded for extension pole use.

Shank

Traditionally, a galvanised 1/4" wire designed to support a 6 1/2" miniroller. Chamfered end for more universal cover fit.

Roller

Made with common fabrics. Built-in 7/16" bearing assembly allows the cover to spin.

4-inch Frame

Some specialised metric miniroller programs use a galvanised 6mm wire shank for 4" covers.

Side Nap vs. Button End

Some painters use minirollers to paint corners, where two adjacent walls or the wall and ceiling are the same colour. For this, a cover that has fabric wrapped around the end is needed – a side nap or closed end. Other painters want minis that allow them to paint beside a surface of a different colour or an unpainted surface. In that case, a button end creates a cleaner line and provides greater control. That's why Wooster offers both roller styles.

MINI-ROLLERS FOR

By Dennis Simmons
Contributed by
Wooster Brush

Big Production

When it comes to minirollers systems, a lot of companies offer the standard wienie-roller design with built-in bearings and a wire frame. The invention of Wooster Jumbo-Koter® a few years ago opened up a whole new system and way of painting. We have been copied by competitors, but ours is the original mini cage system and still the best.

The Jumbo-Koter line has only three frames: short, long, and flip.

The easy-roll cage really sets it apart because it doesn't stick or skid. That's why it has been so successful. Painters really, really like the performance of Jumbo-Koter.

Minirollers are easy to use and great for small areas or any project where someone is thinking, "That's a lot of brushing – I wish there was an easier

way to do it." Bathrooms, hallways, kitchens, cabinets, or any area with a lot of windows and doors resulting in small wall spaces – Jumbo-Koter makes it more efficient. Contractors have told me they started

trimming those area with the Jumbo-Koter, then they end up doing the whole job with it because it rolls so easy and applies so easy that there was no need to ever get out the 9-inch. So in the end there's less to clean up as well.

We offer Jumbo-Koter covers in 4 1/2-inch and 6 1/2-inch sizes, and both fit on each frame. Two roller sizes that work with one frame – that's unique in the industry. You don't need to buy separate frames for each roller size, so it saves money. Jumbo-Koter covers have an open core, like a standard 9-inch roller. That makes cleanup better and easier, and because there are no built-in bearings the rollers are less expensive.

I think Wooster has the most extensive fabric offering for minirollers in the industry. We have 15 different fabrics, offered in varying naps and pack sizes. Jumbo-Koter has two-packs for everything, several six-packs, and also contractor bulk packs. We have a cover for every use and need out there. What's really nice is that they are the same, exact fabrics as our 9-inch and 18-inch traditional covers. That's also unique to Wooster. It makes for great uniformity in the finish. You can trim and cut-in with the Jumbo-Koter or use it to go back and touch up the job, and it blends flawlessly because the fabrics match.

For things like spindles, pickets, or doors that contractors tend to spray, using Jumbo-Koter instead means less wasted material. And with doors you'll save labour because you don't have to mask off or set up a spray area, take them down, take them outside ... instead you can use the Jumbo-Koter and leave the doors up. The minirollers probably take one-third of the time and much less effort. Quite a few paint contractors have tried it and told me it worked great.

There is no reason to use inferior miniroller programs, because the cost isn't much different from the best. If you try Wooster Jumbo-Koter, you will never go back to the old wienie-roller style.

Tru-Edge™ Trimmer

- Provides fast, easy trimming on walls, ceilings, and around door or window frames
- Two guide wheels roll along mouldings to paint sharp, clean lines
- For all latex or oil-based paint, stain, varnish
- Refill with the RR177 trimmer 2-pack

Cat. No.	Shelf Pack
RR175	10

Paint & Stain Pad

- Fast, easy application for interior or exterior projects: walls, cabinets, doors, decks, siding
- Use with all latex or oil-based paint, stain, varnish, sealer
- Thumb latch secures pad in different positions for more comfort
- Adjustable, cushioned handle; use with extension poles to reach high places
- Refill with the RR181 pad

Cat. No.	Size	Shelf Pack
RR180-7	7"	6
RR180-9	9"	6

Tru-Edge Pole Trimmer

- Threaded for use with extension poles to reach high places without a ladder
- Two guide wheels roll along the ceiling to paint sharp, clean lines on the wall
- For all latex or oil-based paint, stain, varnish
- Refill with the RR177 trimmer 2-pack

Cat. No.	Shelf Pack
RR176	10

Paint & Stain Pad Refill

- For the RR180 Paint & Stain Pad; also fits most standard pad painters
- For all latex or oil-based paint, stain, varnish, sealer
- Pad size 7" or 9" W x 3½" H

Cat. No.	Size	Shelf Pack
RR181	7"	10
	9"	10

Tru-Edge Trimmer Refill Pad 2-Pack

- Contains two pads for the RR175 or RR176 Tru-Edge Trimmers; also fits most standard edge painters
- For all latex or oil-based paint, stain, varnish
- Pad size 4¾" W x 3½" H

Cat. No.	Shelf Pack
RR177	10

WOOSTER® is built to work.

SHERLOCK® ROLLER FRAME COMPONENTS

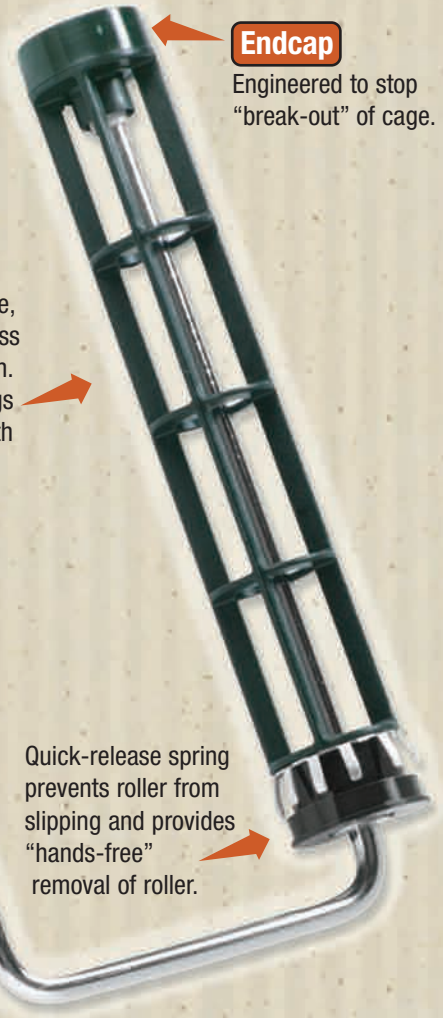

Grip

A comfortable size to fit the hand. Threaded for all extension poles. Sherlock GT pole click fit.

Cage

Made of durable, green™ fibreglass reinforced nylon. Internal bearings for extra-smooth rolling action.

Endcap

Engineered to stop "break-out" of cage.

Quick-release spring prevents roller from slipping and provides "hands-free" removal of roller.

GT Insert

Black collar in many Wooster professional tools that has threads for standard extension poles, plus eliminates twisting when used with Sherlock GT® poles.

SHERLOCK GT® CONVERTIBLE™ EXTENSION POLE

Inner Pole

Made of hexagonal-shaped aluminium to prevent twisting.

Pole Lock Lever

Adjusts pole length every 6-inches with a touch of the thumb.

Outer Pole

Rugged yet lightweight fibreglass adds strength and helps eliminate flex.

Grip

Textured, rubber-like material provides comfort and nonslip leverage.

Tip

Holds all GT-compatible frames, or other tools using conversion tip in the end of the pole.

Tip Lever

Found only on Sherlock GT poles, it allows tools to be attached and released with just one press of the lever.

Conversion Tip

Quick change screw tip to "click-on" for threaded tool use.

Sherlock®

- Quick-release spring prevents roller slippage, yet allows easy, one-rap removal
- Smooth-rolling internal bearings eliminate graying and shank wear
- Durable, green™ fibreglass-reinforced nylon cage and endcaps
- Chrome-plated 5/16" shank, 90° angle
- Polypropylene grip with reinforced threads, Sherlock GT® compatible

Cat. No.	Size	Cage Diameter	Overall Length	Shelf Pack
R017-4	4"	1½"	15"	6
R017-9	9"	1½"	15"	6
ER317-9	9"	1¼"	15"	6

Sherlock® 14"

- Quick-release spring prevents roller slippage, yet allows easy, one-rap removal
- Smooth-rolling internal bearings eliminate graying and shank wear
- Durable, green™ fibreglass-reinforced nylon cage and endcaps
- Chrome-plated 5/16" shank, 90° angle
- Polypropylene grip with reinforced threads, Sherlock GT® compatible

Cat. No.	Size	Cage Diameter	Overall Length	Shelf Pack
R017-14	14"	1½"	15"	6

Big Ben™

- For 18" roller covers, all pile heights
- Lightweight yet strong polypropylene construction
- Quickly install or remove the roller cover—no hardware to adjust, no tools required
- Reinforced threads, Sherlock GT compatible
- R085 spare legs made of fibreglass-reinforced nylon

Cat. No.	Size	Shelf Pack
BR045-18	18"	10
R085 leg set	—	6 packs of 2

Little Ben™

- For 12" roller covers, all pile heights
- Lightweight yet strong polypropylene construction
- Quickly install or remove the roller cover—no hardware to adjust, no tools required
- Reinforced threads, Sherlock GT compatible
- R085 spare legs made of fibreglass-reinforced nylon

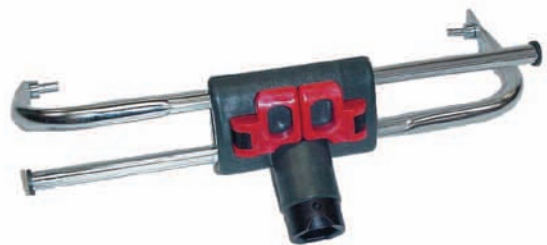

Cat. No.	Size	Shelf Pack
BR045-12	12"	10
R085 leg set	—	6 packs of 2

Sherlock Wide Boy™

- Adjusts to hold roller covers 12 in. to 18 in. long with 1 1/2 in. standard or 2 1/4 in. jumbo diameter, all nap heights
- Extra-strength wing nut design, perfect for floors or other heavy-duty applications
- Rigid tubular steel frame arms, durable fibreglass-reinforced nylon body
- Reinforced threads, Sherlock GT compatible

Cat. No.	Size	Width	Shelf Pack
BR036	18"	12"–18"	3

Sherlock Wide Boy™ Hulk™

- Fast adjusting cam levers to hold roller covers 12" to 18" long, fits all covers with end caps, all pile heights. No fumbling, slipping or pieces to lose.
- Rigid tubular steel frame arms; durable fibreglass-reinforced nylon body
- Extra-strength design weighs less than one pound to reduce fatigue
- Reinforced threads, Sherlock GT compatible

Cat. No.	Size	Width	Shelf Pack
BR047-18	18"	12"–18"	3

Magicage® Trafficage #R022

- Good quality, built like standard 9" frames
- Sturdy 5-wire cage, polypropylene endcaps
- Galvanized 1/4" shank
- Polypropylene threaded grip

Cat. No.	Size	Overall Length	Shelf Pack
R022	4"	11	12

Jumbo Koter® JR Frame #RR011

- Lightweight but sturdy polypropylene construction
- Solvent-resistant plastic cage, extra-smooth rolling action
- Thumb rest for control, ribbed for easy grip (no threads)
- Works with both 4½" and 6½" Jumbo-Koter rollers

Cat. No.	Size	Overall Length	Shelf Pack
RR011	4½" & 6½" Rollers	8½"	12

Utility Frame #R030

- Sturdy 5-wire cage, polypropylene endcaps
- Galvanized 1/4" shank
- Polypropylene threaded grip

Cat. No.	Size	Overall Length	Shelf Pack
R030-9	9"/1½"∅	14	12

Acme™ Heavy-Duty Roller Frame

- Sturdy 5-wire cage, plastic endcaps
- Chrome-plated 5/16" shank
- Plastic threaded grip for extension pole use

Cat. No.	Size	Cage Diameter	Overall Length	Shelf Pack
F0010-9	9"	1½"	14"	24

Magicage® Ninety #R016

- Sturdy 5-wire cage, nylon endcaps
- Chrome-plated 5/16" shank, 90-degree angle
- Full-size polypropylene grip with reinforced threads, Sherlock GT® compatible

Cat. No.	Size	Overall Length	Shelf Pack
R016	9"/1½"∅	15	12

Jumbo Koter® Tray #BR403

- Works with 4½" Jumbo-Koter and other small rollers
- Made of solvent-resistant PET, a recycled plastic
- Green polypropylene resists solvents and paint buildup
- 15" L x 7¼" W x 3" D

Cat. No.	Size	Working Capacity	Shelf Pack
BR403	4½"	1/2 quart	12

2-Quart Deep-Well

- Solvent-resistant polypropylene, assorted colours
- Molded rib design, ladder-hook legs
- 14½" L x 11" W x 3½" D

Sherlock GT® Convertible™

- Special bayonet Grip Tip™ holds Wooster tools in place, no twisting, secure
- R042 Conversion Tip stores in the end of the grip to make all threaded tools GT compatible
- Instantly change tools with one push on the fiberglass-reinforced nylon lever
- Hexagonal aluminum inner pole prevents twisting; rugged fiberglass outer pole
- Easily adjusts in 6" increments, then locks securely in place

Cat. No.	Type of Tip	Length	Shelf Pack
R097	Zinc die cast bayonet	1'-2'	6
R090	Zinc die cast bayonet	2'-4'	6
R091	Zinc die cast bayonet	4'-8'	6
R092	Zinc die cast bayonet	6'-12'	3
R096	Zinc die cast bayonet	8'-16'	3

Sherlock®

- Hexagonal aluminum inner pole prevents twisting; rugged fiberglass outer pole
- Easily adjusts in 6" increments with a touch of the thumb, then locks securely in place
- Universal threaded tip works with all popular tools

Cat. No.	Type of Tip	Length	Shelf Pack
R053	Zinc die cast threaded	1'-2'	6
R054	Zinc die cast threaded	2'-4'	6
R055	Zinc die cast threaded	4'-8'	6
R056	Zinc die cast threaded	6'-12'	3
R057	Zinc die cast threaded	8'-16'	3

Sherlock GT Conversion Tip 2-Pack

- Adapt threaded tools to the Wooster quick on and off system
- Works only with Sherlock GT or Sherlock GT Convertible poles
- Made of durable, fiberglass-reinforced nylon

Cat. No.	Shelf Pack
R042	3 packs of 2

Sherlock Maintenance Kit

- Provides convenient field repair of Sherlock threaded poles (R053-R057)
- Complete set of parts for spring, tip, or lever replacement
- Total of 8 pieces in a clamshell package for peghook display

Cat. No.	Working Capacity	Shelf Pack
8619 Pelican	1 quart	6
8629 Liners		18 packs of 3

Dust Eater™ #1800

- Specially treated material attracts and holds dust for powerful, long-lasting pickup
- Unique triangular shape, measuring 16 inches, designed to cover large surfaces and reach into corners
- Double-action pivot for full surface contact, won't flip or gouge wall
- Great for cleaning drywall, ceilings, walls, baseboards, floors
- Use with extension poles, including Sherlock GT®

Cat. No.	Shelf Pack
1800	2

AeroSander™ #1801

- Unique 9½" triangular shape to cover large surfaces and reach into corners
- Stable 360° pivot for full surface contact, will not flip or gouge wall
- Use with all extension poles including Sherlock® GT convertible™

Cat. No.	Shelf Pack
1801	4

Speed Bucket™ #8617

- Useful medium-sized pail quickly works with rollers 7" or smaller
- Powerful magnet holds a brush; integrated design won't rust or trap paint for easier cleaning
- Built-in 7½" wide roll-off area; notch keeps a frame in place when not in use
- Durable polypropylene construction resists solvents and paint buildup
- 11½" L x 11¼" W x 8¾" D

Cat. No.	Working Capacity	Shelf Pack
8617	1/2 gallon	4

Dust Eater™ Refill #1805

- Fits the 1800 Wooster Dust Eater base
- Specially treated material for powerful, long-lasting pickup
- Unique triangular shape to cover large surfaces and reach into corners

Cat. No.	Pack
1805	3

AeroSander™ Sandpaper #1802 & #1803

- Gator Grit® paper resists clogging and tearing
- Velcro® brand hook and loop fastener for quick secure attachment
- Medium 80 grit perfect for moderate surface sanding
- Extra Fine 120 grit for final light sanding and smooth surface work

Cat. No.	Description	Shelf Pack
1802	80 grit 6-pack	10
1803	120 grit 6-pack	10

Wide Boy™ Bucket

- Built-in 19" wide roll-off area for high-production jobs
- No-tip design and heavy-duty 5/16" galvanized bail with comfort grip for moving when filled
- Durable, seamless, green™ polypropylene resists solvents and paint buildup
- 14" L x 24" W x 10" D

Cat. No.	Working Capacity	Shelf Pack
8614	5 gallon	3

Wide Boy Bucket Lid

- Use with 8614 Wide Boy 5-gallon bucket
- Protects paint from debris and skim-over, stores paint and tools for days
- Made of gray, solvent-resistant PET, a recycled plastic

Cat. No.	Fits Bucket No.	Shelf Pack
8624	8614	6

4-Gallon Bucket

- Built-in 10" wide roll-off area; no-tip design and extra-strong 1/4" galvanized bail with comfort grip
- Durable green polypropylene resists solvents and paint buildup
- 13½" L x 15" W x 9" D

Cat. No.	Working Capacity	Shelf Pack
8616	4 gallon	6

4-Gallon Bucket Lid

- Use with 8616 Wooster 4-gallon bucket
- Protects paint from debris and skim-over, stores paint and tools for days
- Made of tan, durable polypropylene, resists solvents and paint buildup

Cat. No.	Fits Bucket No.	Shelf Pack
8626	8616	6

Snap Screen™

- Snap two together for large trays or buckets
- Durable green™ polypropylene won't rust, resists solvents and paint buildup; open design for easy cleaning
- Excellent for 8614 Wide Boy™ bucket; also fits 8616 Wooster 4-Gallon Bucket or common 5-gallon paint pails
- 10½" L x 10½" W

Cat. No.	Shelf Pack
R007	12

1-Gallon Grid

- Paint right from the can with all rollers 4 1/2 in. or smaller, including Wooster Jumbo-Koter®
- Hooks secure the grid, provide best rolling angle; slot in top holds roller frame grip in place
- Durable green™ polypropylene won't rust, resists solvents and paint buildup, easy to clean
- Fits all 5 litre paint cans, 9 in. L x 5 1/4 in. W

Cat. No.	Shelf Pack
R008	12

Corner Painter

- Shaped to paint both sides of a corner in one stroke
- Fast, easy results along the wall or ceiling angle, baseboards, and trim
- For all latex or oil-based paint, stain, varnish
- Pad size 1½" W x 2½" H, each side

Cat. No.	Shelf Pack
RR179	10

Deluxe Trim Wand

- Fast, easy trim or touchup on woodwork, moldings, small spots
- For all latex or oil-based paint, stain, varnish
- Includes two pads, 1½" W x 2¼" H

Cat. No.	Shelf Pack
RR178	10

Paint Mitt

- Makes painting easy on pipes, railings, wrought iron, chains, detailed surfaces
- Use with all paints
- Also for washing, polishing, dusting

Cat. No.	Shelf Pack
R044	12

Mini Trim Wands

- Compact design for easy painting on edges and small spots
- For all latex or oil-based paint, stain, varnish
- Includes two wands, 2" W x 1" H

Cat. No.	Shelf Pack
RR184	10

Sand & Tack™ #1804

- Two-in-one product to smooth the surface & wipe it clean
- Extra-fine 220 grit sandpaper on the front for finish sanding and touchups
- Strong, flexible tack cloth on the back quickly removes sanding residue
- Contains six 9 in. x 3-2/3 in. sheets for drywall, wood, metal

Cat. No.	Pack
1804	10 packs of 6

Short Stuff™ Touchup Kit

- Great for applying paint samples or touching up scuff marks, chips, or small spots with all latex or oil-based paint, stain, varnish, adhesive
- Package converts to a paint tray; brush wipe-off bar in tray
- Small 1½" brush with flexible handle is easy to control
- Compact, 3" x 3/16" shed-resistant roller with plastic handle may be refilled with Zip™ R148-3" two-pack

Cat. No.	Shelf Pack
BR139	12

KNIT

Spatter Shield Roller

- Plastic shield helps prevent paint misting, spatter, and drips
- Adjustable, cushioned handle adds comfort; use with extension poles to reach high places without a ladder
- For all flat paints, stains, sealers on smooth to light textures
- Refill with any standard 9" x 3/8" roller

Cat. No.	Length/Diameter	Pile	Surfaces	Shelf Pack
RR182-9	9"/1½"Ø	3/8"	Medium	6

Brush & Tool Holder

- Adds reach for brushes and other tools
- Plastic handle adjusts to 13 positions
- Use with all threaded extension poles

Cat. No.	Shelf Pack
F6330	6

Longneck® #1820

- Unique wrap-around handle protects fingers
- Over 80 yards of wire for maximum performance
- Better angle of attack to reduce fatigue
- Overall 12¼" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1820	6" x 1½"	78	1¼"	4

Longneck with Scraper #1821

- Two tools in one: dual-position handle attacks brushing or scraping
- Rust-resistant 3" wide steel scraper, permanently secured to the brush
- Over 80 yards of wire for maximum performance
- Overall 13" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1821	6" x 1½"	78	1¼"	4

Little Rhino™ #1834

- Two tools in one for heavy-duty performance on railings, window frames, other small spots
- Rust-resistant steel scraper, 1½" wide, permanently locked into the brush
- Handy size, easy to carry along
- Overall 9¼" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1834	3¼" x 1"	38	1"	6

Corner Cleaner® #1823

- Handy, small size with pointed end for head-to-reach areas
- Full-sized handle, angled to provide more surface clearance
- Thumb rest adds comfort and control
- Overall 10" length

Cat. No.	Block Size	Trim	Shelf Pack
1823	5" x 1"	1½"	4

Ergo Wire Scrubber™ #1818

- Curved, sander-style handle ergonomically fits the palm and allows users to press down more firmly when scrubbing
- Staggered tufts instead of rows provide better coverage, eliminate rake marks
- Overall 6¾" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1818	6¾" x 2¼"	88	1½"	4

Iron Horse™ #1847

- Pole-mount brush for use with extension poles, including Sherlock GT®
- Industrial-quality, contains more wire for better performance
- Excellent for surfaces that are often out of reach, such as brick walls, gutters, roofs, and storage tanks
- Overall 8" length

Cat. No.	Block Size	Trim	Shelf Pack
1847	8" x 2½"	1½"	4

Wire Boss® #1824

- Long handle with knuckle guard gets into hard-to-reach places
- Faster results with two-handed use by applying pressure to the large oval head
- Industrial size with maximum wire content for aggressive performance
- Overall 12" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1824	6" x 3 $\frac{7}{8}$ "	188	1 $\frac{1}{4}$ "	4

Prep-Plane® #1822

- Plane-shaped design for two-handed use, reduces work time
- Angled tip to reach tough spots
- Maximum wire content for aggressive performance
- Overall 10" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1822	10" x 1 $\frac{3}{8}$ "	156	1 $\frac{1}{4}$ "	4

Industrial Wire Scrubber™ #1825

- Rounded handle reduces fatigue, comfortably fits the hand, and adds control
- Staggered tufts instead of rows provide better coverage, eliminate rake marks
- Overall 7" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1825	7" x 2 $\frac{7}{8}$ "	172	1 $\frac{1}{4}$ "	4

Super Scrubber™ #1828

- High-performance mix of two fibers for faster cleaning: tampico holds more liquid, polypropylene remains stiff, resists chemicals and solvents
- Rounded handle reduces fatigue, comfortably fits the hand, and adds control
- Overall 7" length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1828	7" x 2 $\frac{7}{8}$ "	68	1 $\frac{1}{2}$ "	4

Sky Scraper® #R089

- Rigid 3" flat blade of 16-gauge rust-resistant steel, beveled edge for precision
- Smooth, ergonomic grip for hand scraping: use flat or turn edge-wise for crevices
- Compatible with all extension poles, including Sherlock GT®
- Overall 8 $\frac{1}{2}$ " length

Cat. No.	Shelf Pack
R089	4

Top Brass™ #1833

- Packed with non-rusting brass wire, resists corrosion and solvents
- Pliable bristles help avoid scratching
- Handy size reaches small spots
- Overall 8 $\frac{1}{4}$ " length

Cat. No.	Block Size	No. of Tufts	Trim	Shelf Pack
1833	3 $\frac{3}{4}$ " x 1"	42	1"	8
